Consent for Telemedicine Services / Virtual Visit Care and Treatment

General Consent: I consent for Patient, which may be defined as me, my child or a child for whom I have legal responsibility, to receive care and treatment at a Children's Health System of Texas hospital, facility, entity or program (collectively referred to as "Children's Health") through Telemedicine Services (which may also be referred to as a Virtual Visit). Telemedicine Services may be provided by physician, nurses, and other health care providers ("Telemedicine Providers") and may include the evaluation, diagnosis, consultation on, and treatment of Patient's medical or health condition using advanced telecommunications technology. For School Health Telemedicine Services, I agree that by signing this form, I consent for Patient to receive Telemedicine Services in my absence. I understand that photos or video of Patient may be taken in connection with Telemedicine Services and for operational, quality improvement, research, and education purposes. I understand that Children's Health is a teaching institution and agree that residents, fellows, students and other approved individuals may observe and participate in the Telemedicine Services under appropriate supervision.

I understand that Telemedicine Services include interactive audio, video or other electronic media and that there are both risks and benefits to being treated via telemedicine. I understand that Telemedicine Providers (i) may be in a location other than where Patient is located, (ii) will examine Patient face-to-face via a remote presence but will not perform a "hands-on" physical examination while using the Telemedicine Services, and (iii) must rely on information provided by Patient and any on-site health care provider(s). I further understand that Telemedicine Services may be limited or unavailable as a result of technological or equipment failures, incomplete or inaccurate data to perform the Telemedicine Services, or distortions of images or other information from electronic transmissions. I acknowledge that the Telemedicine Providers cannot be held liable for advice, recommendations and / or decisions based on factors not within their control, such as incomplete or inaccurate data provided by Patient / others or distortions of diagnostic images or specimens that may result from electronic transmission.

If the Telemedicine Providers determine that Telemedicine Services do not adequately address Patient's medical needs, the Telemedicine Providers will refer Patient for on-site medical evaluation at another provider location. If after the Telemedicine Services, Patient experiences an urgent or emergent matter, such as a negative reaction to any treatment, or if the telemedicine session is interrupted due to a technological or equipment failure, alternative treatment may be needed and I will obtain follow up care and treatment for Patient as needed.

I understand that precautions are taken to protect the confidentiality of Patient's medical information by preventing unauthorized disclosure; however, I understand and acknowledge that the security of electronic transmission of data, video images, and audio information cannot be guaranteed and confidentiality may be compromised by illegal or improper tampering.

Independent Providers: Telemedicine Providers may not be employees of Children's Health, but may be employed by other entities or be independent providers (collectively referred to as "Independent Providers"). The Independent Providers are responsible for their judgment, conduct and the care they provide through Telemedicine Services. I acknowledge that Children's Health is not responsible for the judgment, conduct or care provided by Independent Providers.

No Guarantee: I acknowledge that no guarantees or warranties have been made with respect to treatment or services to be provided at Children's Health. I understand that all supplies, medical devices and other goods provided to Patient are provided by Children's Health **AS IS** and Children's Health disclaims any expressed or implied warranties.

Text Messaging: I agree that if I provide a cell phone number for text messaging, Children's Health can provide notifications to my cell phone. I acknowledge that standard text messaging rates and fees will apply, text messaging utilizes a public telephone network and full security is not guaranteed, and that to prevent another person who has access to my phone from seeing these messages, I will need to protect my phone with a password or PIN. I understand that text messaging may not be used by me to notify Children's Health of Patient's health care needs.

Duration of Consent: I understand and agree this Consent for Telemedicine Services Care and Treatment is valid 1) for School Health Telemedicine, for the current school year, and 2) for all other Telemedicine Services / Virtual Visits, for the present and future visits for one year from the date of signature below unless I revoke the consent prior to that time.

I have read and understand the information in this Consent for Telemedicine Services / Virtual Visit Care and Treatment form.
