

2017 KEY FACTS ABOUT CHILDREN'S MEDICAL CENTER DALLAS

For more than a century, Children's Medical Center Dallas, the flagship hospital of Children's HealthSM, has been at the forefront of making life better for children. Today, it is the eighth largest pediatric hospital in the country, and is consistently ranked among the nation's best by *U.S. News & World Report*. A 490-bed full-service hospital, Children's Medical Center Dallas offers tertiary and quaternary expertise in more than 50 pediatric specialties and the highest level of trauma care in North Texas as a Level I Trauma Center.

INDUSTRY RECOGNITION

Children's Medical Center Dallas is the only pediatric hospital in the country with eight disease-specific care certifications from The Joint Commission for conditions, including asthma, autism and diabetes. The recipient of the prestigious Magnet designation for nursing excellence received by fewer than 8% of hospitals, Children's Medical Center Dallas has been recognized by the American Nurses Credentialing Center (ANCC) for quality patient care, nursing excellence and innovations in professional nursing practices since 2009.
