Children’s Health is the leading pediatric health care system in North Texas, the eighth largest pediatric health care provider in the nation, and the second busiest in the nation in terms of admissions and pediatric Emergency Department visits. A private, not-for-profit organization, Children’s Health is anchored by two full-service and one specialty hospital. In addition, Children’s Medical Center Research Institute at UT Southwestern performs transformative biomedical research with a dedicated team of world-class researchers. The system also includes multiple specialty centers, 17 Pediatric Group practices and a telehealth network, as well as home health and physician services.

MISSION
As a health care system, the Children’s Health mission is to make life better for children, from daily wellness and primary care to specialty visits and critical care, with nearly 40 locations and approximately 1,200 physicians.

FACILITIES AND PARTNERSHIPS

• Children’s Medical Center Dallas: Academic medical center campus anchored by 490-bed full-service hospital, which includes the first pediatric hospital in Texas with a designated Level I Trauma Center.

• Children’s Medical Center Plano: 72-bed full-service hospital.

• Our Children’s House: A 39-bed inpatient specialty hospital that provides a wide range of comprehensive care services for children from infancy through age 18 with developmental or birth disorders, traumatic injury or severe illness.

• Children’s Health Specialty Centers: 18 locations that offer subspecialty care, outpatient surgery, imaging, physical medicine and rehabilitation.

• Children’s Health Pediatric Group: 17 pediatric primary care offices located throughout North Texas, specializing in health care for infants and children through age 18.

• Children’s Medical Center Research Institute at UT Southwestern: 91 researchers focused on transformative advances related to cancer, birth defects and metabolic diseases.

• Children’s Medical Center Dallas in partnership with CHRISTUS Trinity Mother Frances Health System, Tyler, established the first neonatal telemedicine program in Texas, known as TeleNICU (Neonatal Intensive Care Unit).

• Pediatric Partners: Network of more than 300+ pediatricians and pediatric specialists committed to developing clinical initiatives and population health management support to improve quality and cost control.

SPECIALTIES AND SUBSPECIALTIES

• Children’s Health provides care through more than 50 pediatric specialty and subspecialty programs ranging from simple eye exams to specialized treatment in areas such as heart disease, endocrinology, hematology-oncology and cystic fibrosis.

• Children’s Health is a major pediatric kidney, liver and heart transplant center with more than 1,300 solid organ transplants completed.

CHILDREN’S HEALTH IN THE COMMUNITY

Children’s Health recognizes that health and wellness begins outside of its facilities, so the organization has made a commitment to reach more children, in more places, in new and better ways than ever before. Children’s Health can be found in area schools, where the TeleHealth program with school nurses provides access to physicians who practice at Children’s Health, reducing the need for parents to leave work to take their child to the doctor.

Children’s Health also has forged alliances with community organizations to educate families about the importance of health care, including routine check-ups and vaccinations, at locations and events throughout the region. These initiatives are part of the organization’s commitment to being by the side of parents in the health and wellness of their children.
AWARDS AND ACHIEVEMENTS

• U.S. News & World Report consistently names Children’s Medical Center Dallas one of the top pediatric hospitals nationally in the “Best Children’s Hospitals” survey. For 2017-2018, Children’s Medical Center Dallas was ranked in nine out of 10 specialties: Orthopedics, Gastroenterology & GI Surgery, Nephrology, Cardiology & Heart Surgery, Urology, Cancer, Neurology & Neurosurgery, Diabetes & Endocrinology, and Neonatology.

• In 2017, Children’s Health was named to Hospitals & Health Networks “Most Wired” for the 11th time in the last 12 years. “Most Wired” recognizes information technology adoption in U.S. hospitals and health systems. For the second year in a row, Children’s Health achieved “Most Wired” “advanced” status. Children’s Health is the only health system in Texas named to the list.

• Children’s Medical Center Dallas received U.S. News & World Report’s Most Connected Hospitals 2015-2016, recognizing hospitals whose excellence in patient safety, patient engagement, and clinical connectedness improved patient care.

• American Nurses Credentialing Center (ANCC) Magnet Recognition Program: Children’s Medical Center Dallas and Children’s Medical Center Plano have maintained Magnet designation since 2009, recognizing quality patient care, nursing excellence and innovations in professional nursing practices.

• Named for six consecutive years as one of the “150 Great Places to Work in Healthcare” by Becker’s Hospital Review based on benefits, wellness initiatives, commitment to diversity and inclusion, professional development opportunities, and work environments that promotes employee collaboration and satisfaction.

• Children’s Medical Center Dallas is the first hospital in Texas to receive the Texas Covered Entity Privacy and Security Certification by the Texas Health Services Authority (THSA) and the Health Information Trust Alliance (HITRUST).

• For the third consecutive year, the WorldatWork Alliance for Work-Life Progress recognized Children’s Health for demonstrating leadership in workplace strategies and practices to help team members achieve success in work-life effectiveness.

• All eight disease-specific programs were re-certified in 2017 by The Joint Commission, the nation’s predominant standard-setting accrediting and certifying regulatory body in health care.

• The Children’s Health Transport team was named the 2016 Emergency Medical Services (EMS) Crew of the Year by EMS for Children, displaying outstanding care for a child in an emergency medical or trauma event.

• In 2017, Dallas Independent School District awarded Children’s Health with the Emmett J. Conrad Extra Mile Award for outstanding ongoing support of the school district. With this award, DISD recognized the commitment of Children’s Health to serving the needs of students, teachers and nursing staff over the years.

HISTORY

• Founded in 1913 as the Dallas Baby Camp.

• Grew into the Bradford Hospital for Babies in 1930.

• Joined with Children’s Hospital of Texas and Richmond Freeman Memorial Clinic in 1948 to become Children’s Medical Center Dallas.

• Affiliated with UT Southwestern Medical Center in 1964.

• Evolved into a comprehensive health care system, Children’s Health, in 2014.

• Acquired Our Children’s House in July 2015.

• Launched the Children’s Health Andrews Institute for Orthopaedics & Sports Medicine in November 2015.

• Began seeing patients at the Rees-Jones Center for Foster Care Excellence in December 2016.

• Opened Children’s Health Specialty Center 2 Plano in December 2017.
