

Child Life Workshop

An introductory workshop to learn more about the role of a child life specialist.

This workshop is open to high school juniors and seniors, college students, and adults considering a possible career change.

- **Child Life 101** – an overview of the child life specialist role
 - Discuss the traditional roles of a child life specialist
 - Watch video clips of child life staff working with patients and families
 - Explore the process of a child life specialist from patient assessment to intervention
 - Participate in a panel discussion with Certified Child Life Specialists
- **Child Life 201** – an overview of the requirements to enter the field
 - Academic preparation
 - The journey from student to professional – what is required and what is not
 - Discuss your unique needs during afternoon breakout sessions
