Children's Medical Center Dallas ranked in

10 out of 10

specialties by *U.S. News & World Report* but what does that really mean?

To find the best in the nation, *U.S. News & World Report* analyzed close to **200** pediatric care hospitals based on critical criteria and patient outcomes.

Children's Health was one of **22** children's hospitals who performed well enough to be nationally ranked in all **10** specialties.

“BEST” is defined as the most excellent, effective or desirable type of quality. Rankings are based on:

- Quality of patient care resources
- Excellence in treatment, patient safety and reputation
- Patient outcomes
