

School Supply List

School Services

School supply donations

As summer travels by in a lightning flash, soon it will be time to head out to purchase new school supplies. At Children's HealthSM we have many patients that will not be able to shop for supplies along with caregivers that will have a difficult time purchasing supplies due to medical bills and other necessities.

The School Service Department at Children's Health needs community members or groups to donate school supplies for our wonderful patients, whom will be going back to school very soon. These supplies will help patients and their families be better prepared for the upcoming school year.
