

CONTROLLER MEDICINE

TAKE EVERY DAY

Medicine ASMANEX

- Strengths: 2
- Doses: 14, 30, 60, or 120
- No priming needed
- Hold inhaler straight up
- Remove the cap of the Twisthaler while it is in the upright position. This loads the dose
- Cap must be fully closed after each dose to load the next dose
- Breathe out. Place mouthpiece in mouth and take a deep breath in.
- Do not cover the ventilation holes while inhaling the dose
- Never breathe out into the device
- If taking only once daily, use in the evening
- Rinse mouth after each dose
- Spit the water out
- Discard 45 days after removing from the foil pouch
- If the mouthpiece needs cleaning, gently wipe with dry cloth or tissue as needed
