

Flu Shot Locations in Dallas

The best defense against the flu is vaccination

Influenza, or the flu, is a contagious respiratory illness caused by a viral infection that infects the lungs, mouth and throat. The flu virus is contagious from the day before symptoms show up until 5 to 7 days after a person gets sick. The best protection against the flu virus is the flu vaccine. The flu vaccine is recommended for almost everyone except children younger than six months of age.

The Dallas County Health and Human Services (DCHHS)

The flu vaccine is available for children at all clinics and for adults at the main clinic location. The cost for the first visit is \$10, and \$5 subsequent visits. No "Texas Vaccine for Children eligible" child will be denied services. The following community locations offer the flu vaccine:
